## GREETINGS FOR CHRISTMAS

"Let us go even unto Bethlehem."

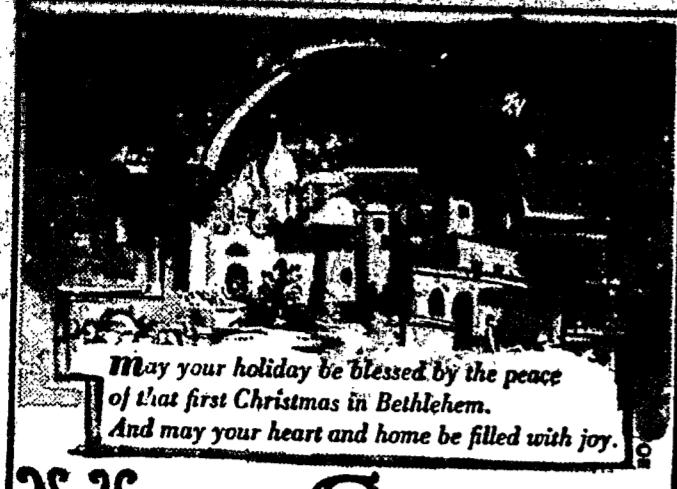

So spoke the shepherds, one to another as they went to seek and find the Holy Child of whom the angels sang. This Christmas, let us return in heart and spirit to Bethlehem and the sacred manger. Let the miracle of His birth and the joy of His message ever be our blessing and inspiration.

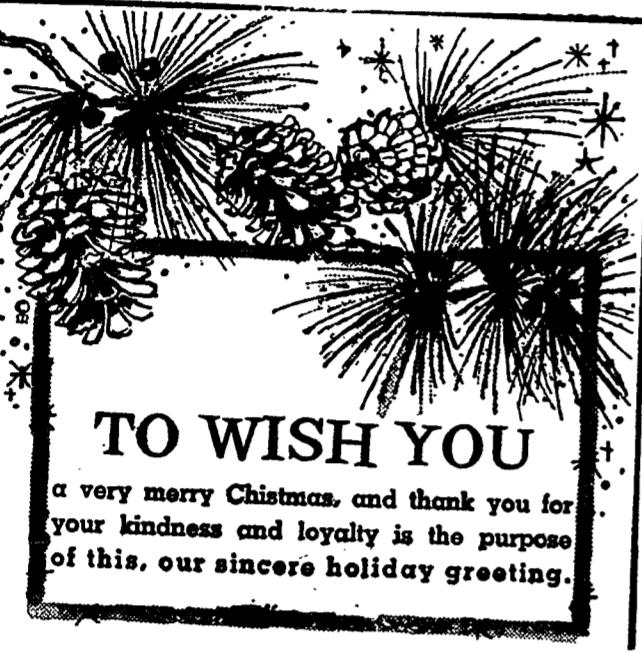

As the radiance of that Holy Night shines across the years and the world rejoices, our thoughts turn to His words, urging all to brotherhood, and we feel it is especially fitting at this Christmastide to express anew our cordial greetings and good wishes to our many valued friends. May your Christmas be a wonderful one.

#### 4-H YOUTH AND THE NATION'S AGRICULTURE

A group of men recently had a peak at what could be a part of the U. S. farm scene 20 years hence. Among the things they "saw" were artificial lighting of entire fields making possible several harvests within a single growing season; devices to predict which eggs hatch; pullets and which produce roosters; soil sterilized against plant disease and harmful weeds by mobile X-Ray units.

Fantastic - but not impossible, were electronic gadgets here - others capable of selecting only mature crops then cleaning, grading and packaging them as the machine travels over the field; processed milk weighing a fraction of raw milk, stored without refrigeration and transported to a common market; converted salt water piped from the ocean to areas having a shortage of fresh water; farmers taking weekend rocket trips to check up on agriculture in far away places; and scores of other seemingly unbelievable developments.

Who, two decades ago, envisioned the technological changes - the mechanical, chemical and biological developments that today make our agriculture the most efficient in the world; the efficiency which enables 92 per cent of our working force to choose non-farm occupations?

We can be reasonably assured that future developments will be products of the minds of young men and women presently living on a farm, and who will leave the farm, but not agriculture, to find work. Many of these young people will carry to their jobs a solid background of specialized experience, skills and training gathered in the 4-H agricultural program supervised by the Extension Service of land-grant universities and colleges.

But practical experience alone does not meet the expanding needs of the vast agri-business complex. Formal education is essential. And that education is costly.

Many boys and girls who proudly wear the green and white 4-H emblem need an assist to begin or continue college. Toward this end, far-sighted business enterprises have been providing 4-H scholarship funds for a long time.

Soon college scholarships and fellowships valued at \$145,000 will be presented to 275 of the nation's most outstanding 4-H youths and to young adults who once were 4-H Club members.

Presentations will be made during the 42nd National 4-H Club Congress at Chicago the first week in December. This annual event is the showcase of some 1,500 boys and girls representing the best of 4-H in all 50 states and Puerto Rico. Hosts will be the business executives whose firms provide the trips, scholarships and other 4-H assistance.

If this far-reaching interest and support continues through the next four decades it has in the last four, the technological advances still on the drawing board, and many more not yet conceived will have a better chance to become realities. Thus investment in rural youth pays big dividends, dividends that keep the U. S. A. agri-business in the unique position it vigorously guards today.

MISSISSIPPI POWER CO. REPRESENTATIVES HEAR NUCLEAR REPORTS

More than 200 delegates, including representatives of Mississippi Power Company this week heard a score of internationally recognized nuclear authorities praise the role of the Enrico Fermi Atomic Power Plant for advancing breeder reactor technology.

The conference on fast neutron breeder reactors was held recently near the site of the Fermi Plant, the world's largest fast breeder reactor power station.

The Fermi Atomic Power Station, near Monroe, Mich., began nuclear operation on August 23, 1963. The nuclear part of the plant was designed by Atomic Power Development Company and financed and built by Power Development Company, two non-profit organizations to which Mississippi Power belongs.

A. J. Watson Jr., president of the Gulfport-based utility, said that the conference of distinguished nuclear leaders dramatically underscored the importance of the fast breeder concept in the future development of electricity from the atom. He defined the breeder reactor as one which produces heat for the generation of electric power while, at the same time, producing a new man-made fuel, plutonium.

"Although, in Mississippi, we cannot produce electricity from nuclear fuel as economically as we can from conventional fuels", Mr. Watson continued, "the experience gained from participation in pioneer projects like the Fermi plant may well make economical power from the atom a reality in the future."

Mississippi Power has been actively engaged in finding successful applications of atomic power to the generation of electric power since 1953." Mr. Watson said, "and the Fermi project represents one of two atomic power undertakings in which our company is presently

#### HOLY DAY HELPED COMFORT SORROW

Even when Christmas wasn't merry, history shows that the holy holiday has brought comfort and hope into the midst of sorrow and hardships.

Such was an early Christmas in the new world, observed in 1535 at a small fortress on the banks of the St. Charles river near what is now the City of Quebec, Canada.

**PLANTING OF WINTER CROPS.**

I know it has been dry all over the state for a period of time and planting has been delayed or germination has been delayed where planting has been done. Winter grazing can be planted through the first part of December, with a chance of good success. For late winter and spring grazing and hay food programs, but it is just as necessary. Study some of the things that lime does and present this.

**BROOMSEDGE MOVING.** Fertilize is the answer to moving out and keeping out broomsedge. If anyone knows of a better method,

lime and potash applied will be there next year. I would like the average rate shown to be 50 pounds per acre in place of higher rates. In areas where it has not rained, go out and plant anyway. The land has been prepared. Don't wait until it rains to do the planting.

**PLANTING.** While it is dry in the fall is a good time to spread lime and see a lot being spread. This is the basis for high fertilizer use on pastures and forage crops. I never could plow a mile without the collar of the harness. I know it is a good method to get farmers to fertilize highly, whatever he can afford to.

**FIRES.** Everybody is talking about the dangers of fire and the fires we are having. Fire lanes are the only control I know to be sure of. If anyone goes through a winter where all the pastures have been burned off, they will never let this happen again if they can help it. Even though grasses are dormant, there's a lot of forage on the land for livestock.

**RATS COST MONEY.** Would you keep animals that eat and spoil your grain, carry disease to your animals and family, kill small animals and chickens, and don't return you one penny? You are doing just that if you allow rats on your farm.

Just 50 rats can eat enough grain annually to feed a dairy cow for one year. One rat can eat about two-thirds as much mash as a hen. And they waste and con-

taminant many times more food than they eat.

Rats destroy property by gnawing, burrowing, and nesting. Grain bags, paper cartons and wood containers are damaged worst, but even concrete, brick, metal and wood are gnawed. Rats start fires by chewing electric wire insulation and ruin electrical appliances by short-circuiting open switches, and they use inflammable materials to build nests. Rats burrow seriously weaken foundations and bottom floors.

Rats carry contagious abortion, distemper, mange and rabies. All told, over 35 known rat-borne diseases threaten animals and people.

Gnawing and destroying property - biting and killing and spreading disease - constantly eating your produce and food - you can't afford to keep such an animal on your farm.

In The Matter Of The Purchase Of Road Machinery For The Use Of SUPERVISORS DISTRICT NO. THREE OF HANCOCK COUNTY, MISSISSIPPI

WHEREAS, The Board of Supervisors of Hancock County, Mississippi, considers it necessary and to the best interests of the public, that it purchase for the use of Supervisors District No. Three in constructing, reconstructing and maintaining the public roads thereof, the hereinafter described tractors, trucks and/or other machinery and equipment, in the purchase of which it intends to take advantage of the provisions of Section 2937 of the 1942 Code of Mississippi, as amended by Chapter 246 of the 1950 Laws of the State of Mississippi, and pay therefor in installments, or cash in its discretion, it is therefore Ordered, that the Clerk of this Board do forthwith cause to be published in the manner provided by law, the following notice, to-wit:

**ADVERTISEMENT FOR BIDS**

Notice is hereby given that the Board of Supervisors of Hancock County, Bay St. Louis, Mississippi, will receive sealed bids until 11:00 o'clock, A. M., on the 6th day of January, 1964, for the sale to it, for the use of Supervisors District No. Three of the following described road machinery and equipment, to-wit:

One new tandem drive motor grader hydraulically operated powered with diesel engine not less than 125 H. P., equipped with 12-ft. hydraulic shiftable mold-board, power steering, enclosed cab, 14.00 x 24 tires front and rear, weight approximately 25,000 lbs., to sell or trade one old Galion model 104 motor grader.

The Board reserves the right to reject any and all bids.

Given under my hand and of official seal of office, this the 2nd day of December, A. D. 1963. (SEAL) C. J. LADNER, CLERK Board of Supervisors, Hancock County, Mississippi

**HOLIDAY SEASON  
INCREASES POSSIBILITY  
TRAFFIC ACCIDENT**

With the approaching holiday season, the risk of becoming involved in an accident increases, according to Lewis Graeber, President of the Mississippi Safety Council. The Council President stated that the risk is greater because of the increase in travel by people visiting relatives for the holiday season.

The safety official said the number of traffic deaths during 1962 has already far exceeded the total number for the entire year 1962 and unless extreme caution was used by all drivers, the present year would break all existing records for highway fatalities.

Graeber stated the holiday season should be a time for rejoicing instead of mourning, but that unless every driver used extreme care some

FAMILY PLANNING  
PREPARE FOR NUCLEAR  
POWER-WEAPON ATTACKS

STATE COLLEGE, Miss. - Family emergency planning will help prepare families for a possible nuclear attack on this country, according to Charles W. Steppinger, civil defense specialist for the Cooperative Extension Service of Mississippi State University.

In planning for nuclear emergencies the first step is to learn the facts about fallout. County extension agents and local civil defense directors have free publications on this subject.

The next step is to look for the safest location in the home or in

the farm. Often there are locations that will give excellent protection against fallout with a small amount of labor and cost.

Some of these locations are

torn-down walls, basements and storage areas under homes, recreation areas, and buildings above ground that have a lot of weight in the walls and roof. Civil defense directors and county extension agents can advise on making these locations into shelters from radioactive fallout.

An important part in emergency planning is providing food and water and other supplies for living during the emergency period.

Food supplies should be one that are liked by the family, require little or no cooking and keep

## Old-Fashioned Wishes

We take this opportunity to wish all our friends a wonderful Christmas holiday!

## A Christmas Message

Reverently, we remember a night of awe and wonder,

when angels sang, shepherds watched and a shining Star guided Wise Men

to the manger where a Child was born. We celebrate this holy holiday with thoughts for all

our good friends everywhere, and with the hope that for

you, the meaning of Christmas may be ever deeper, its joys ever greater.

## NASA News..

HUSTSVILLE, Ala. - Some 30 representatives from the National Aeronautics and Space Administration headquarters, and all NASA centers convened here today to discuss problems connected with air, sea and land transportation of huge space rockets and equipment as well as management of conventional motor vehicles.

The group, which includes James C. McCollom, director of NASA transportation and logistics, was welcomed by David H. Newby, associate deputy director, Administrative, at MSFC.

William Morrow, chief of MSFC's

SEASON'S FIRSTS'  
ARE TRACED

Shepherds watched, angels sang and wise men traveled far to behold the miracle of the first Christmas.

Since that holy night a multitude of legends and customs, both religious and secular, have developed as part of the holiday. Each legend was once told, each custom once observed for the first time, and though origins of many traditions are now lost in time, other Christmas "firsts" have been recorded for posterity.

There are historical Christmas "firsts" attested by church records and by scientific research into the early years of Christianity, as well as "firsts" of later history and "firsts" that blend fact with myth.

## SETTING THE DATE

December 25, was first assigned as the date for the celebration of the Nativity in about the year 20 A.D. Since the New Testament was written as religious instruction rather than history, the date of Christ's birth is not known.

The present day was selected as means of unifying the observance of Christmas, "the mass of Christ."

## HANGING STOCKINGS

Story of the first Christmas stocking is associated with the real St. Nicholas, a fourth century bishop known for his many kind deeds. Wishing to present an anonymous gift to help the daughters of an impoverished merchant, he threw a bag of gold down the chimney, where it fell into a stocking hung up to dry.

The legend is reflected in today's custom of tucking "gold", an orange or tangerine into the toe of a Christmas stocking.

## TRIMMING TREES

Trimmed Christmas trees first appeared in the United States probably during the American Revolution. Hessian soldiers with the British forces started the practice to relieve their nostalgia for their homeland.

An early diary, written at Fort Dearborn, Ill., in 1804 relates the practice of trimming the Christmas tree with ornaments of the time.

## AT THE WHITE HOUSE

First National Community Christmas Tree in the U. S. was placed on the White House lawn in 1923, while Calvin Coolidge was President. The tree was a spruce from Coolidge's native state, Vermont.

In the following year Coolidge presided at a ceremony under the sponsorship of the American Forestry Association, to urge the use of living Christmas trees.

## AT THE ROUND TABLE

Traditionally, the first Christmas feast in England was held at

Transportation Branch and host during the three day session, said an address was scheduled today by Gilmer Randolph, executive officer, Defense Traffic Management Services, Department of Defense.

Panel discussions were scheduled later this afternoon and tomorrow to deal with various modes of transportation and problem areas. The panel talks covered a broad spectrum of transportation, including general traffic management, transportability, motor vehicle management, airlift management and travel.

S. O. Farris, deputy assistant commissioner for motor equipment, General Service Administration in Washington, D. C., was to arrive Friday to speak on GSA supporting roles in the motor vehicle area. He was to be accompanied by an assistant, J. McConnell.

Morrow said this is the first NASA Transportation conference involving all Centers. He said the Marshall Center was selected as the meeting place because it is the largest of the NASA Centers and is involved in air, sea and land transportation.

Morrow said representatives of other Centers can study the overall transportation scope here due to this wide range of activities.

N. G. Williams of MSFC's Michoud Operations, New Orleans, La., is also attending, along with Dave Homer of MSFC's Mississippi Test Operations.

In addition to conventional motor vehicle transportation, the Marshall Center has barges which transport huge space vehicles to and from the Cape Kennedy, Fla., launch site. Michoud Operations and later to serve the Mississippi Test Operations, now under construction.

It also has a huge airplane under contract to haul rocket stages from as far away as California. Many rocket components are also brought in by rail and by truck from various contractor operations.

GAINESVILLE, Miss. - A contract for \$931,157 has been awarded to C. H. Leavell and Company and Peter Kiewit Sons' Company for the construction of the Data Acquisition Facility at NASA's Mississippi Test Operations.

The U. S. Army Corps of Engineers, Mobile District, construction agent for NASA, announced the award today.

The Data Acquisition Facility will be the centralized collection point for test data provided by the Saturn V test complex data handling system. It will be a two-story building, 103 feet wide and 118 feet long, with a large basement. The structure will have reinforced concrete foundation, frame and exterior walls and will be equipped with blast doors.

The Corps of Engineers also announced that bids will be opened on January 7 for the construction of an RP-1 dock, marine terminal facilities and a booster storage building. The contract is expected to amount to about \$4 million.

the Round Table of King Arthur while the specific date is undetermined, references to the famous king in medieval legends have been tracked back to as early as 800 A.D.

STATE MEETING  
MISS. DENTAL ASST'S  
DECEMBER 7

The state meeting of the Mississippi Dental Assistants Association was held on December 7, in Laurel, Miss., at the Phoenix Hotel. Dr. Hilbert, from Laurel spoke on Communism, its goals and Advancements in our nation throughout the world.

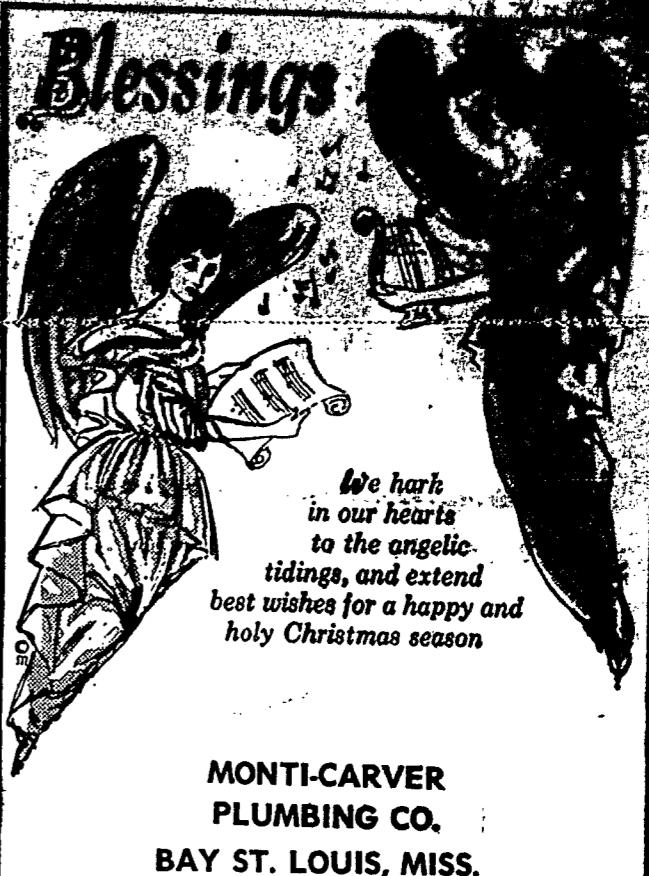

Those members attending the meeting were: Mrs. Dacia Ruth Richey, president, Waynesboro, Miss.; Mrs. Marilyn LaBarber, president elect, Biloxi, Miss.; Mrs. W. E. Phillips, 1st vice president, Bay Springs, Miss.; Mrs. Josie Frey, 2nd vice president, Quitman, Miss.; Mrs. Ollie Herrington, secretary-treasurer, Laurel, Miss.; Mrs. Vernelle Cooley, Lucedale, Miss.; Mrs. Joyce Grisson, Tupelo, Miss.; Mrs. Louise Wilson, Vicksburg, Miss.; Mrs. Viola M. Cunningham, and Miss Dianne Carr, of Bay St. Louis, Miss.

Sunday Psalms 149:1-9      Monday Isaiah 7:10-17      Tuesday Isaiah 9:1-7      Wednesday Matthew 1:18-24      Thursday John 1:43-51      Friday John 7:40-52      Saturday Galatians 4:1-4

On the holy night, the Christ child was born to an unknown carpenter and his wife in Bethlehem.

No palace physician attended the Prince of Peace — perhaps a mid-wife or a serving maid.

No fine linens were prepared for the mother; no crib for the Babe — just the straw and the manger were theirs.

No royal salute was fired to announce His arrival — only the braying of the animals in their stalls was heard.

Never was royalty greeted with less pomp and circumstance.

Why? Because man could not raise himself to God!

So God sent His Son to light up our hearts and minds with His Divine Presence.

His living Spirit brightened the most ordinary and commonplace tasks of the day.

If He could so hallow that stable, can He not hallow our homes, our places of work, the whole of our lives?

Of course! Consider again and again the miracle of His birth. Be in church on Christmas to welcome anew the Christ child in your heart.

# Ring of Christmas Expressed in Church Services

"And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Saviour, which is Christ the Lord."

Like the shepherds, who left their flocks to seek the Babe of Bethlehem, men, women and children of this community will put aside, not only their everyday concerns, but the more immediate interest in tree-trimming and package-wrapping and go to find once again the holy meaning of Christmas, in special services held by local churches.

Catholic churches will proclaim the birth of the King of Christendom by solemn midnight masses. To commemorate the Nativity, Protestant churches will hold candlelight and communion services

and children's programs.

The custom of saying mass at midnight derives from an old belief that Christ was born at that hour. Actually, mass may be said at any hour during the night before Christmas, and in some countries the first Christmas mass is said at four or five in the morning.

According to early Roman regulations, Christmas mass was celebrated "when the cock crows," about three o'clock in the morning. Spanish-speaking people still call midnight mass "Misa de Gallo,"

while the Portuguese term is "Missa do Galo." In both cases "mass of the cock."

Candlelight services held in Protestant churches symbolize Christ as the light of the world, and the shining beams of the candles call to mind the Star that shone to guide the Wise Men.

Exemplifying the spiritual side of Christmas are programs which include "special" sermons, reading the Christmas story, prayers, carols and the Sacrament of the Lord's Supper.

## MALE SHOPPER IS EDUCATED, RETAILER SAYS

It will be a bolder, yet more realistic type of male shopper who will haunt lingerie departments and perfume counters this Christmas season, according to an Allentown, Pa., retailer who conducted his own survey.

The survey shows that the average man will be looking for dainty and intimate items - without blushing when the salesgirl asks what size. Man's greater interest and knowledge of women's fashions account for part of this change in habits, Hess says.

### REALISTIC

Another survey revelation shows that men will be shopping more realistically. Besides the romantic "must" items men buy for their lady folk, such as French perfume, lace lingerie and upholstered jewel and candy boxes, this year they will buy more "bread and butter" items such as practical ready-to-wear apparel, household appliances, cooking utensils, home furnishings and garden supplies.

The survey found that the men folk will know exactly what they want, what the wife needs around the house or for herself and exactly what she has been wanting for a long time - but there will be some surprises.

### SOME SURPRISES

Some of the surprises will be cocktail dresses which the male shopper will buy for his lady and the man will know the size dress she wears and the color she prefers. When it comes to perfumes, the male shopper will demand recognized scents and the favorite ones of their ladies, not just any perfume the saleslady suggests.

With grateful thanks to our friends  
for the pleasure and privilege of serving you.

## American Legion

All Legionnaires thank you for your wonderful cooperation throughout the year.

TO ALL CHILDREN OF HANCOCK COUNTY

The Legion cordially invites you to attend the Big Legion Christmas Tree and Party at the

Legion Home in Bay St. Louis,

Tuesday, December 24, — 1:00 P. M.

Starting with a Movie at 1:00 P. M.

SANTA WILL BE THERE AT 2:30 P. M.

We wish you the greatest  
joys of the season...  
a festive holiday in a happy home.  
With family and friends gather to exchange  
gifts and greetings, to light the fire, trim the  
tree, bask in the warmth of real affection.

Sheriff Gerald V. Price  
and his entire staff

## CHRISTMAS ROSES FAIRIED IN LEGEND

Blooming in the heart of winter and sometimes even in the snow, the Christmas rose is a plant found in legend.

According to an old story, a poor little shepherdess had no gift to offer the Christ Child, and so she wept. When her tears touched

the ground, flowers sprouted. Delighted, she placed an armful and presented it to the infant. The petals of His fingers turned the petals pink.

Botanists claim the Christmas rose is a member of the buttercup family. Native to Southern Europe and Western Asia, it has leathery, dark green leaves and large, saucer-shaped flowers with white

or rosetted petals, according to The Encyclopedia Americana.

The traditional colors of the Christmas season are red and green. Yet these colors have meant different things to different people over the ages. Color has been used as the symbol of abstract ideas from time immemorial.

In early and medieval Christian art colors had a mystic or symbolic meaning. Red indicated passion. In its good sense it was a symbol of divine energy and love and the creative power of the Holy Spirit; in its bad sense it was a sign of hate. In that meaning it became an emblem of Satan.

Emerald green is often the symbol of hope and growth in many Christian paintings.

Colors played an important role in medieval magic and superstition. For example, the famous "philosopher's stone," which the alchemists thought would turn base metals into gold and cure all diseases, was thought to be colored red, according to the Encyclopedia Americana. Red was also a favorite curative color in more recent superstitions.

In Indonesia, the people think a piece of bright red coral will keep its owner's teeth in good order, and there are people everywhere who are sure that a person owning a ruby will live to a ripe old age.

Green was a sacred color among the ancient and medieval Egyptians who wore it as a symbol of

hope and joy of spring. The sons of Hess carried the green throughout the Middle East, and the faithful, on returning from the pilgrimage to Mecca, wear a green turban.

## CHRISTMAS CANTATA PRESENTED AT BAPTIST CHURCH

The Christmas story in music was presented Sunday night at the First Baptist Church, with representatives of choirs and members of the communities' churches participating.

The Rev. Dennis Harlow, assistant at Our Lady of the Gulf Catholic Church, gave the invocation and the Rev. Lamar Martin, pastor of the Main Street Methodist Church, gave the benediction. Also participating were the Rev. Enory Green, pastor of the First Baptist Church and the Rev. Charles Johnson, pastor of Christ Episcopal Church.

## SIGNS BILL ON AID TO EDUCATION

WASHINGTON - President Johnson this week signed a bill putting the government in partnership with the nation's colleges to help them meet rapidly rising enrollment.

Johnson's pen put an end to a three-year struggle launched by the late President John F. Kennedy to provide federal aid for construction of college classrooms, laboratories and libraries.

The bill that finally reached the White House authorizes a total outlay of \$1,195,000,000 over three years. Its aim is to make room in higher education institutions for enrollment expected to increase from 4.2 million in 1962 to 7 million by 1970.

More than half the money, \$600 million - is earmarked for grants for construction of undergraduate and junior college facilities. Each state must use 22 percent of its allotment for public junior colleges and technical institutes.

The remainder can go to both

## Couple Arrested For N.O. Robbery

### QUARTERLY MEETING WEST COAST DEANERY LAST WEDNESDAY

A young couple was arrested here Wednesday about 1:00 a. m. after they allegedly robbed a New Orleans man who had befriended them. The arresting officers were Deputy Sheriff Gerald Favre and Highway Patrolman Pope.

Chief Deputy Sheriff Gerald Price said the couple was turned over to New Orleans police last night.

Robert Robinson, 28, and his wife, Donna, 21, who had lived at 2926 Canal, are accused of robbing the New Orleanian's car, \$30 and a watch.

Police said the victim of the holdup about 7:45 p. m. yesterday at the Canal St. address was Roland Matheney, 62. He also lives at the address.

Matheney told police that he rents an apartment at the Canal Street address and gave the man a job with him in the construction business.

Tuesday Matheney was drinking coffee with the Robinsons in their apartment when Robert Robinson allegedly pulled a hunting knife and threatened to "run the blade through your heart" if Matheney did not sign over the title to his car.

Matheney told Detective Lt. Alvin Eckels and Det. John Fieber and Paul Gustafson that Robinson also took all the cash he had, and his watch.

Although Robinson had warned Matheney to remain silent in the matter for a week, Matheney called police soon after the couple left. A full description of the car and couple was relayed to Miss. McMurtry authorities.

After capture at 1:50 a. m. the couple denied stealing the car. They contended that the car was purchased from Matheney. The knife was recovered.

The meeting adjourned with a prayer by Monsignor Hannon following a brief talk by Father O'Donohue of Long Beach in which he explained some of the proceedings of the recent Ecumenical Council.

### CHARLES F. SCHWARTZ DIED TUESDAY AT CLERMONT HOME

Charles Frank Schwartz Sr., 75, died at 6:45 a. m. Tuesday, December 17, at his residence in Clermont Harbor.

Mr. Schwartz, who was in the contracting and house building business, moved from New Orleans to Clermont Harbor 30 years ago.

Survivors are his widow, Mrs. Bernadine Lohmann Schwartz, a son, Charles F. Schwartz Jr., two daughters, Mrs. Fred Bourgeois, Waveland, and Miss Marie Schwartz, Africa, five grandchildren and five great-grandchildren.

Funeral services were held at Riemann's Fahey-Whitfield Funeral Home at 2 p. m. Wednesday with religious rites at 2:30 o'clock at Clermont Harbor Methodist Church with the Rev. Dale Lyons officiating. Interment was in Bayou Caddy Cemetery.

### CHURCH SERVICES FIRST PRESBYTERIAN CHURCH 110-114 Ulman Ave.

The service at 11 o'clock Sunday morning will celebrate the Advent Season. The minister, Rev. E. A. Lindsey, will preach on the Birth of Jesus. Special music under the direction of Mrs. Robt. Teague.

The Joy Gift Service will be at 4:40 p. m. This service will be directed by Mrs. Kenneth Teague and Mrs. Harold Cook.

A number of children and young people will take part on the program. The gifts will be - First for the Retired ministers of the church who are not eligible for support under the Annuity Plan. Second, Special Gifts to the church or to whatever cause the donor indicates.

The public is cordially invited to the services.

### JAYCEES TO HOLD DSA BANQUET IN JANUARY AT B-WYC

The St. Louis Jaycees will hold their annual Distinguished Service Award and Bosses' Night Banquet Saturday, January 18, at the Bay-Waveland Yacht Club. Installation of new officers and presentation of Jaycee awards will also be done at this banquet.

The D. S. A. program is to honor the young man between 21 and 30 years who has been outstanding in service to the Community. Bosses' Night Program is to foster better understanding of the Jaycee organization and how it benefits employers. These programs will be the kick-off on National Jaycees Week.

D. S. A. Chairman, Donald J. Ladner; Bosses' Night Chairman, Bill Hever; Jaycee Week Chairman, Lee Chopin.

### DISCUSS LIGHTING CONTEST AT MEETING OF GARDEN CLUB

Bay-Waveland Garden Club met Thursday at the Garden Center with Mrs. Ben Hille Sr., presiding in the absence of the president.

Mrs. C. R. Beyer, chairman of the Veterans party, reported the club entertained 65 at the Gulfport Veterans Administration Hospital.

Mrs. O. P. Adams was named chairman of the annual lighting contest sponsored by the club.

### HOLIDAY BOXING SHOW DECEMBER 27 AT NG ARMORY

A holiday boxing show will be held Friday, December 27, at 8 p. m. at the National Guard Armory.

Plans are underway to have boxers from St. Mary's CYO Houna, Biloxi, Pascagoula and Bay St. Louis boxing teams.

There will be approximately 10 to 12 bouts.

### FREE SHOW AND CHRISTMAS PARTY

All children of this community are invited to attend a free movie and receive free popcorn at the STAR Theatre, compliments of Mr. and Mrs. Joseph J. Scafidi and sons. The show will precede the American Legion Christmas party at 1:00 p. m. Tuesday, December 24th.

After the movie everyone will gather and watch the arrival of Santa Claus by seaplane.

They will replace Richard Hayden, Bob, Cyril Glover and Ray Gordon.

The new board will meet within the next week to elect a new commander and other officers.

A cocktail hour followed the business session.

## Kantcha Ketchum

this kind of hunting.

Among those not mentioned, last week who have been catching speckles up Jordan River were: Jack Kramer, Harold Netto, Billy Olson and Julian Lorenzen.

John F. Scanlan of New Orleans has completed a home in Shoreline Park about 4 miles from the city. John like all others moving to the Coast, says he wants to catch up on his fishing and hunting. Will help you enjoy it John.

Kick Hayes, U. S. N. has been home on leave for 20 days. He has been doing some fishing, also visiting friends and relatives. Rick will leave on Dec. 31, for Juan, Puerto Rico. He has been in the Navy for 3 1/2 years.

Russell Jones who is with NASA has been fishing. Working pretty much, he planned to go over the weekend but the local weather changed his mind. There will be other days, Russell. Besides fishing, he loves football best.

Was good to see Capt. Arthur Price the other day. Now that he has plenty of time on his hands he says he will put it to good use by enjoying his favorite sport, fishing. Capt. has a home right on the bayou on the Kiln Road. Hasn't far to go.

Learned something new from George W. Marlow, not known to many of our late residents. Edwards Bayou with its head at Edwardsville was originally known as Choctaw Bayou, named by the last tribe of Indians to leave this section of the country. Joe's Bayou, Breath's Bayou and others are called after former residents but all have Indian names, such as Rotten Bayou, Bayou Coco, Bayou

Rabbits and squirrels are rather plentiful according to those doing

La Croix and others.

Had letter from Martin Okrasinski of Baltimore, Md., since returning from the Bay. He says he has been catching some yellow perch and pike, both large fish which give you a thrill when catching them. Thanks for the bait Martin, will give it a fair trial here.

Speaking of cold weather he says that when cold weather appears, he cannot get his car out

Local football fans are looking forward to the Sugar Bowl game New Year's Day. A group of 30 have purchased tickets and are ready for a good time. Every year this same group journeys to the big city as well as other individuals for the event.

## DEER AND TURKEY LAW CHANGED

According to local game warden Pat Toomey, south of Hi-way 10 will be open to deer hunting when the second part of the sea-

son opens on Dec. 26, and closes Jan. 11th.

The turkey season which opens April 1st and closes April 20th will allow turkeys to be killed south of Highway 90.

There are seven whooping cranes in captivity. Six are at the New Orleans Audubon Park Zoo, including the famous Crip and Josephine, and one is in the San Antonio, Texas, Zoo.

dorf & Nelson Farms, Inc. She pursues her 4-H interest in college and majors in poultry science at Mississippi State University. She is the daughter of Mr. and Mrs. James I. Rhea Sr.

Charles Young, 19, top winner in the field crop competition sponsored by the Aradian Products Department, Allied Chemical Corporation, believes that the entire productivity of his family's farm "increased through skills and new methods introduced by the 4-H Club."

And Carolyn Rowzee, State College, first chose her award-winning field of health on her mother's advice that it would be helpful to the family.

Interest in Food

Miss Weaver, 19, daughter of Mr. and Mrs. Arna Weaver, developed an interest in foods and nutrition through 4-H activities.

She is now majoring in home economics at Itawamba Junior College and hopes to become a dietitian. Her trip to the National Congress is sponsored by General Foods Corporation.

Miss Rhea, 18, won the poultry award sponsored by Heis-

## Hard Work Pays Dividends For Top 4-H'ers

Two Newton County girls have been selected to attend the National 4-H Club Congress in Chicago Dec. 1-5 on the basis of outstanding 1963 4-H projects.

The girls, selected by the Cooperative Extension Service, are Mary Skinner, 15, of Union and Linda Harris, 18, of Decatur.

Miss Skinner was named this year's state winner for her gardening project and her trip is sponsored by the Farm Equipment Division, Allis-Chalmers Manufacturing Company.

Miss Harris recreation activities garnered high honors for her and a trip to congress sponsored by John Deere.

ALL READY AND WAITING FOR SANTA to empty his sack of toys under her Christmas tree is Miss T. Ryan, daughter of Mr. and Mrs. James Ryan Union Street.

### IMPORTANCE OF HEREDITY STUDIED IN BEEF CATTLE

STATE COLLEGE - How much beef gain is due to heredity and how much to environment?

The Mississippi Agricultural Experiment Station sought information on this question in a seven-year study involving 1428 calves. There were six breeding units of Hereford, four Angus and two of Shorthorn, with a total of 350 cows.

The purpose of the research was to obtain heritability estimates by studying similarities and differences between closely related animals as contrasted to unrelated ones. Using the overall average for all breeds, J. C. Taylor, of the Animal Husbandry Department, arrived at the following heritability esti-

nates: birth weight 28 percent, weaning grade 24 percent, average daily gain 21 percent, and weaning weight 33 percent.

Use of heritability estimates is explained as follows: If a producer selects for his breeding stock both bulls and heifers that are heavier at weaning than the average of the population from which they were selected, he may expect one-third of this difference to be transmitted to the next generation by inheritance.

For example, bulls and heifers weighing 420 pounds at weaning, chosen from a group averaging 360 pounds, have a 60-pound differential in their favor. Multiplied by the 33 percent heritability estimate, this would credit 20 pounds to heritability. Calves from these selected parents could then be expected to average 380 pounds at weaning.

The heritability estimates for birth weight, average daily gain from birth to weaning, and weaning grade may be fitted into the formula for progress in the same manner as the weaning weight percentage, Mr. Taylor said.

### CHANCERY SUMMONS NO. 9283

THE STATE OF MISSISSIPPI To the Heirs at Law of MABEL E. BARNES DODD, Deceased, and all other persons having any right, title or interest in and to the land described as follows, to-wit:

Lot Number One (1) and Lot Number Two (2) of Block Numbered Ninety-two (92) of the Town of Gulfview of Hancock County, Mississippi as per plat of said Town on file and record in the office of the Chancery Clerk of Hancock County, Mississippi.

You are summoned to appear before the Chancery Court of the County of Hancock, in said State, on the Third Monday of February, A. D. 1964, to defend the suit No. 9283 in said Court of John D. Barnes and Helen P. Barnes.

The same being a suit to place heirs in possession of said land above described wherein you are a defendant.

This 17th day of December, A. D.

### NOTICE OF BOND SALE

### \$175,000 PUBLIC HOSPITAL BONDS OF HANCOCK COUNTY, MISSISSIPPI

Sealed proposals will be received by the Board of Supervisors of Hancock County, Mississippi, at the office of said Board in the Court House in Bay St. Louis, Mississippi, until the hour of 10:00 o'clock A. M., on Tuesday, the 7th day of Jan., 1964, at which time said bids will be publicly opened for the purchase, at not less than par and accrued interest, of the above bonds of said County.

Said bonds are to bear date of March 1, 1964, are to be of the denomination of \$1,000 each, and shall bear interest at a rate or rates to be determined pursuant to sale of said bonds, payable March 1, 1964 and semi-annually thereafter on September 1, and March 1, in each year. Both principal and interest on said bonds will be payable at a place to be designated by the purchaser, subject to approval by the Board of Supervisors, and said bonds shall mature serially, without option of prior payment, on March 1 in each of the years as follows:

### PUBLIC HOSPITAL BONDS \$175,000

### HANCOCK COUNTY, MISSISSIPPI

### YEAR OF 20-YEAR 25-YEAR MATURITY SCHEDULE

1965	\$5,000	\$5,000
1966	5,000	5,000
1967	5,000	5,000
1968	5,000	5,000
1969	5,000	5,000
1970	8,000	8,000
1971	8,000	8,000
1972	8,000	8,000
1973	8,000	8,000
1974	8,000	8,000
1975	11,000	8,000
1976	11,000	8,000
1977	11,000	8,000
1978	11,000	8,000
1979	11,000	8,000
1980	11,000	7,000
1981	11,000	7,000
1982	11,000	7,000
1983	11,000	7,000
1984	11,000	7,000
1985		7,000
1986		7,000
1987		7,000
1988		7,000
1989		7,000

Bidders are requested to designate in their bids the price they will pay for bonds bearing interest at a rate or rates likewise to be designated in their bids; provided, however, that all bonds of the same maturity shall bear interest at the same rate, which shall be a multiple of one-eighth of one per centum (1/8 of 1%).

Proposals should be addressed to the Board of Supervisors, should be plainly marked "Proposal for Hospital Bonds", and should be filed with the Clerk of the Board on or prior to the date and hour hereinabove named. Each bid must be accompanied by a cashier's check, certified check, or exchange, payable to Hancock County, Mississippi. No formal certificate is required. A bank located in the State of Mississippi, in the amount of three thousand five hundred dollars (\$3,500.00) is guaranteed that the bidder will carry out all contracts and obligations the board. If this bid is accepted, the successful bidder shall be responsible for bonds bearing interest at the rate and contract period of such bond. Each bid shall be retained by the County for a period of one year.

The Board of Supervisors

## RETIREMENT PLAN BONDS MUST BE PURCHASED NOW

Self-employed persons were reminded today that U. S. Retirement Plan Bonds, offered under the Self-Employed Individual Tax Retirement Act of 1962, must be purchased by December 31 to qualify their owners for 1963 tax deferral benefits.

The reminder came from Newell N. McAlpin, State Savings Bond Director, who suggested that eligible persons contact their banks for information about establishing retirement programs for them-

elves and their employees through a bond purchase plan. IRS Form 3673, which may be used to establish such plan, is available at the District Office of the Internal Revenue Service.

Most banks can furnish application forms for use in purchasing Retirement Plan Bonds. However, the bonds are issued only by federal Reserve Banks and the Treasurer of the United States.

A plan for the purchase of Retirement Plan Bonds is only one of several means open to the self-employed to qualify for benefits under the Act. To realize an income tax deduction during this calendar year, the retirement plans must be set up and contributions made on or before December 31. Self-employed persons are permitted to claim as a tax deduction a

portion of wages for their own all of their employees.

Mr. McAlpin said bonds are on sale since Oct. 1 at \$100, \$500 and \$1,000, and interest at six-month rates.

## Yuletide's Own Festive Glow

## Traditional Yule Scene

Yuletide's own festive glow over the streets of the world have cast a glow over these festivities for centuries. Many of the Christmas traditions of this very earliest of times have sprung up around the use of candles had their origin in Pagan rites.

The Pagan Yule, nearly coinciding with today's date for Christmas, was accompanied by the burning of a giant log during the twelve days in which it was thought that the sun stood still. From this stems Yule log tradition.

In medieval Europe the custom of also lighting a giant Christmas candle that would burn brightly till Twelfth Night. During their Saturnalia, Romans

from Germany comes a similar custom that the Virgin Mary and a host of angels preside over the country each Christmas Eve. Candles are put in the windows of their homes as an invitation to the food that is usually left for them.

## Fresh Apples Ornament Snack Tray

The historic partners of apples and cheese make a decorative holiday appearance when they're teamed in unusual ways for modern snacking. At this time of year fresh apples are at their tangiest, sweetest, crunchiest, complementing perfectly the smooth, flavorful cheeses. Best of all, the apples are the Red and Golden Delicious from the world's Apple Bowl, Washington State. These large-sized, sweet-flavored apples are perfect for fresh eating, for holiday salads, for low-calorie snacking.

Unusual is the two-tier tray service above, combining Washington Golden Delicious crescents with wedges of Edam cheese, spicy cream cheese and nut balls, slices of smoked cheese or meat, and slices of American cheese. Your holiday guests will enjoy choosing fresh Washington applesnack combinations to please their individual tastes.

## Apple'n Cheese Christmas Ball

2 large Washington Golden Delicious apples  
1 small Edam cheese

Cut one Washington Golden Delicious apple into eights; put crescent-shaped apple wedges in lemoned-water bath. Cut Edam cheese into crescent to match apple wedges. Re-build ball on tray alternating cheese and apple wedges, using toothpicks to hold together. Arrange any remaining cheese crescents on plate around second, uncut Washington Golden Delicious apple.

## Curried Cheese Balls

1 8-oz. package cream cheese  
2 tsp. cream  
1/2 tsp. curry powder

Soften cream cheese; blend in cream, curry, and orange rind. Let chill slightly, then form into balls. Roll in chopped nuts; chill until ready to serve. Then combine on platter with Washington apples.

fastened candles to trees to dispel the darkness, thus indicating the sun's return.

There is an old story that Martin Luther brought a fir tree into the nursery one Christmas Eve for his wife and children. To show them the glory of the night when Christ was born, he decorated the tree with lighted candles, representing stars.

Today electric lights have taken the place of candles on Christmas trees, but candles still burn brightly in churches and homes throughout the world.

One of the most impressive holiday uses of candles is in the candlelight carol and communion services held in many churches at Christmas time.

Appropriately enough, one of the liveliest candlelight ceremonies takes place each year in the Central Moravian church at Bethlehem, Pa. Complete with traditional organ and orchestral music, the program includes reading of the Christmas story, prayers and carols.

## THE NATION'S STAKE IN AGRICULTURE

Most of us Americans - some 70 percent - live in town. Probably grew up there - maybe haven't set foot on a farm in years. But we've all got a big stake in agriculture, just the same.

How?

The farmer's well-being affects our jobs, our businesses, the price we pay for the things we buy.

He's also the custodian of precious soil and water resources that must be used wisely now and handed down in good shape to future Americans for outdoor recreation, forests, wildlife and for "open space" around our cities. His associates in the big business of agriculture - processors, marketing men help move farm food and fiber to us economically, in a usual form.

FOOD IS A BARGAIN: Think of your latest trip to the grocery store. If yours is an average family, the cash register rang up an amount that was about 20 percent of your week's take-home pay. That's the best bargain Americans have ever had in food. Back in 1947-49, it was 26 percent. Englishmen must spend about 31 percent, Italians 43 percent, Poles 49 percent. In many developing countries it's even more.

And we're eating better now. If we bought just the same kinds and amounts of food as we did in 1939, only 15 cents of today's pay-check dollar would be going for food, rather than 20 cents.

## HIGHER LEVEL OF LIVING:

Why such a bargain? One main reason - U. S. farmers are the most efficient producers in the world.

Each farm worker feeds 28 people today, compared to 7 in 1900. One hour of farm labor now produces four times as much food and fiber as it did 40 years ago.

That helps keep our grocery bill low - leave more money to buy other things.

This efficiency also releases manpower from farming. Today in the U. S. only about 1 in 12 workers is on the farm. In the Soviet Union, nearly half the workers are in agriculture.

Our people not needed for farm work are free to produce other goods and services that contribute to our high standard of living. We can also afford to keep a large number of our working age population in school, learning skills to further advance our civilization.

FARMERS ARE GOOD CUSTOMERS: The American farmer buys a lot of almost everything sold. That affects most of our income in some way.

Farm families spend \$42 billion a year - \$27 billion for the items it takes to produce livestock and crops, and \$15 billion for the same kinds of things city people buy. Those are important statistics if you're a businessman.

They're important to jobholders, too. Put that farm buying power in terms of people and you see that millions of "city" jobs depend on farming. Some 6 million people provide goods and services that farmers buy. Another 10 million transport, process, store and sell farm products. Their paychecks help the U. S. economy all along the line.

ABUNDANCE FOR A STRONGER NATION: Farm efficiency has put the United States in an enviable position. We have an abundance to share with others in

## CIVIL RIGHTS MARCH ON WASHINGTON COST TAXPAYERS \$805,000 - SOLON

WASHINGTON - The civil rights march on Washington last Aug. 28 cost the taxpayers \$805,000, Rep. George Huddleston Jr., D-Ala., said.

He had called on Comptroller

General Joseph Campbell the day

of the march for an account of

its cost to the government.

Campbell has reported to him

that "out-of-pocket costs" and di-

version costs to the District of

Columbia government and the De-

partment of Defense totaled \$285,

000, Huddleston said.

In addition, administrative leave

costs to government agencies in

the D. C. area took another \$165,000 from our taxpayers, bringing the estimated total to \$805,000."

This figure of \$805,000 does

not include some \$50,000 for food

provided to participants in the rally

which the District refused to pay

for because it was a political rally.

In addition, administrative leave

costs to government agencies in

the D. C. area took another \$165,000

from our taxpayers, bringing the

estimated total to \$805,000."

Huddleston said in a statement.

TO AND  
FROM  
PRODUCTS

of a private forest products laboratory, will be established by the State of Mississippi State University. It is reported that the laboratory will aid in finding new and expanded uses for timber products and will help in attracting new industries to Mississippi.

The laboratory will also help create new jobs, increase income, enlarge present timber markets, improve the quality of some timber products, and give a big boost to the state's general economy, according to Phil Enoch of Turnwood, chairman of a special laboratory committee of the Mississippi Forestry Association. The MFA is an organization of individuals and companies interested in forestry development.

It is proposed, Enoch said, that the laboratory be established at Mississippi State University, a much of the existing research equipment and personnel at the university could be used for timber products research and much time and money saved in plant facilities and technical workers.

Nine other organizations have joined the Mississippi Forestry Association in giving their full endorsement and support to the laboratory. Endorsement by the group came only after Mississippi State University made an extensive study of the need for the laboratory, the problems involved, and the additional facilities and personnel required. Studies by the University have included visits by qualified

foresters to laboratories in Alabama, Louisiana, Texas, North Carolina, and Wisconsin to determine the best and most economical way to construct and operate the laboratory.

FOREST DEVELOPMENT  
BROCHURE IS  
PUBLISHED

Faced by an acute need for bigger and better markets for timber and timber products, the Mississippi Forestry Association and numerous interested agencies and organizations are making a united effort to establish a forest products laboratory at Mississippi State University.

The Mississippi Forestry Association, representing individuals and companies interested in forestry development, has published a tract brochure that tersely summarizes the great need for such a laboratory. The booklet tells what the laboratory will do and explains the many benefits it will bring to Mississippi.

According to Phil Enoch of Turnwood, chairman of the MFA's Laboratory Committee, the present depressed timber market in some areas is due mainly to keen and growing competition from other materials, such as metals, plastics, and concrete, and from lumber shipped in from the Pacific Coast area. He added that for certain types of trees there is no market at all and research doubtless could find a use for these trees.

THE SKYROCKETING  
SOYBEAN

Soybeans, a relatively new cash crop, has skyrocketed in acreage and production in the past few years and now ranks fourth place in farm cash returns behind cotton, wheat and corn. Mississippi's 1963 record crop of 26,000,000

bushels of soybeans and soybean products is worth \$200 million.

USDA estimates that 200 billion bushels of soybeans will be needed, giving \$1.5 billion pounds of crude soybean oil and 1.1 million tons of soybean meal. Soybeans are widely used in refinery, oil, food oils and the meal as a protein and animal livestock feed.

Soybean meal is in growing foreign demand, especially in Japan and Western Europe, to meet feed needs of the expanding livestock industry in those countries.

With acreage limitations on cotton and high prices, prevailing for soybeans, growers are likely to set another new record in acreage planted in 1964.

Soybeans are ideal for the Mississippi Delta which has adopted soils and available machinery for seed bed preparation, cultivation, and harvesting.

## MEN IN SERVICE

USS TOLOVANA (FHTNC), Ashton R. Carver, seaman, USN, son of Mrs. Allen Carver of 202 St. Charles Street, Bay St. Louis, Miss., is serving aboard the fleet oiler USS Tolovana, which operates out of Long Beach, California.

The oiler is presently undergoing training after completing a yard overhaul and receiving radio and replenishment equipment for testing purposes. Tolovana is also preparing for a February deployment to the Western Pacific with the Seventh Fleet.

DECORATING THE TREE  
CAGE TILTS FROM  
PASS CHRISTIAN

It is not too early to begin the mixture of decorations and holiday enhancement of the home, now, in order to insure a safe, happy observance this year. Pass Christian, at a time of year, little lights and shiny glass ornaments, and of toys that sometimes have sharp, rough edges. There are certain rules of plain good sense to recall.

Check over your old strings of Christmas tree lights and discard those that are worn or brittle. Discard burnout bulbs with caution. Keep the glass ornaments and shiny glass "angel hair" out of baby's reach. Make certain that no toys coated with lead-based paint are included in Santa's pack. Select electrical toys with safety in mind. Air rifles, sling shots and other missile throwing toys are dangerous if carelessly used. Set up target ranges and make certain the youngster is taught to use the toy properly and safely.

Mr. and Mrs. C. J. Donner and Mrs. Louise Spencer left Monday for New Orleans where they will spend the Christmas holidays with Mrs. Spencer's daughters, Mrs. C. A. Ross, Mr. Ross and family and the J. Tulleys.

BAY HIGH WINS  
CAGE TILTS FROM  
PASS CHRISTIAN

Bay High swept three games from Pass Christian Friday night in Gulf Coast Conference basketball action in the Pass High gymnasium.

Bay High won the preliminary ninth grade game 29-25, took the girls' varsity contest 48-43, and won the boys' varsity game 61-59.

Pass Christian resumes action tonight by invading Hancock North Central to take on the North Central Hawks. Bay High will be at home Tuesday night to the Ocean Springs boys and St. Joseph's Academy girls.

Larry Harrison scored 23 points and Leroy Luke 13 to lead the Tigers in their varsity triumph. Marlin Ladner was high for the Pirates with 18 points, followed by Bergeron with 14, and Wayne Moran and Carroll Ladner with 12 each.

Mike Necaise was high for Bay High's ninth grade team with 10 points and Buddy Scarborough was high for Pass Christian with eight.

Melva Luke scored 24 points and Sherlyn Cochran added 17 for the Bay High girls. Dianne Pavolini was high scorer for Pass Christian with 26 and Susie Pavolini added 13.

We thank you for your  
friendship and wish  
you a Merry Christmas!

won the district contest demon-  
strations account for many  
her other awards.

STATE BUSINESS  
GAINS SHOW ALL TIME  
HIGH'

Business activity gains were re-  
gistered in October by 16 of the  
state's 16 business districts and  
68 of the 80 principal cities  
according to the forthcoming issue  
of "The Mississippi Business and  
Economic Research."

The increases came during  
month when business activity  
reached an all-time high in the  
state, reports the publication  
a product of the Mississippi State  
University Bureau of Business and  
Economic Research.

Business activity in October was  
about 3.6 percent over the previous  
high recorded in August of  
this year.
